The Surveys from Wyoming to this City Completed.

A RIGHT OF WAY PURCHASED,

The Progress in Electric Bonds - The D. & R. G. W. Other Rallway News of Interest.

The survey of the proposed Wyoming, Sait Lake & California rallway has been completed from the Wyoming line to this city, over the route that has heretofore been described in these columns. In an case does the grade exceed 2 per cent, guing west and 21, per cent, going cast. This is cribles the Park city division. The pur-

tions that originally led to its adoption have since been supersected by others arising from change of conditions. Bulk is no longer broken where even with an uniform gauge it used to be. Refrigerator cars and other special facilities and the vast reduction in the rates of transportation of freight have caused traffic to come from great distances, enhancing the relative importance of interchanged business, and have developed new sorts of traffic that will not stand transdigment, unless there is no competitor for it. Shippers as a rule are adverse to transfers of certain articles, like warons, arrivaltural implements, stoves, furniture, crockery, stone and chinaware, as interfering with both safety and dispatch, and are upt to send the remainder of their goods by the same way that a part goes. Vestibule trains and laruries in the matter of space and accummodations are now demanded.

Personal and General.

The Box line began January 1 a check to its system of conducting excess baggage charges by requiring the weight to be taken by baggage agents both at the initial and destination points. It has resulted so eatisfactority that many other lines lawestness alone month. Chairman Walker, of the Inter-state

Chairman Walker, of the Inter-state Continence Rallway association gives notice that the word "trackage" has been defined by the inter-state commerce commission as follows: "The word "trackage," as used in the order of the commission, embraces alterances by one company to another for use of its readed or main line or branches or at terminate or stillags, or to individuals for any of these purposes."

A wail of indirentlen is geome up all

individuals for any of these purposes.

A wall of indirnation is going up all lengthe line of the Nebrasia division of the Union Pacific on account of a recent order of Roadmaster Brown, who declares that section men in future must not smoke while at work; and further, that every man must carry his diance his a tin bucket in order that the track may not be forsaken at most time.

The house was a beautiful one to contemplate and a beautiful one to count up; the wealth, fashion and brilliance of the city were out to see the dramatination of Airs. Hodgson Burnette's celebrated story, and the sum they left in the box office for the privilene did not amount to much I sas than a thousand dollars.

It is safe to say that no one thought of the cost, or that he would have regretted double the amount, as the delicate and exquisite boardies of the play unfolded themselves. Piece and players made an intense impression, and to day the marvels in acting of the Lattle Lard will be the consuming topic in hundreds of homes. Those who have read the book—and are familiar with the quaint, old-fashioned sayings put into the mount of a seven year-old innocent—can imagine semething of the effect and the impression that the character would impart if abequately represented on the stare. he supposed to operate as effectual bars to the weaving of the story into a play, but the necessary talent was found in several children who have essayed the character and one of the most original, striking, human, pathetic and touching plays seen on the stage for many years is the result. All the boys claim to represent regular theater patrons, and deay that any speculation will be done with the tickets they precure. Each comer this morning will be limited to ten tickets each. Manager Burton has posted up a notice in the lobby warning speculators that they are liable to a fine of \$100 ff they sell tickets without a license, and he states that the theater would accept it as a favor if all patrons who are approached by anyone offering tickets at more than the usual prices would furnish the names of those doing the effering. Any such will be given a taste of the revised ordinances. In the meantime, with the rush certain to ensue this morning both for Fauntinoy and Booth and Barrett, some means will have to be devised for handling the two crowds. It is not unlikely that the other box office will have to be opened.

WHAT IS

SCROFULA

It is that impurity in the bleed, which, cumulating in the glands of the neck, y duces unsightly lumps or swellings; whi causes painful running sores on the arms, legs, or feet; which developes alters in the eyes, cars, or nose, often causing blindness or deafness; which is the origin of pimples, candecamess, which is the origin of purples, can-cerous growths, or the many other manifesta-tions usually ascribed to "humors;" which, fastering upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofulous sore neck from the time she was "months old till she became six years of age. Lamps formed in her nock, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Heod's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. Camilla, Nauright, N. J.
